DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, drawn to a photovoltaic power generator providing power generated by a solar battery panel through a DC-DC converter.

Group II, claim(s) 7-9, drawn to a control method of a photovoltaic power generator.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1, because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the limitations common to the groups of claims are known in the prior art, as evidenced by Hui et al. (US 2003/0066555), see abstract and paragraphs 0003-0015. Therefore, these cannot constitute shared special technical features.

Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventors must be amended in compliance with 37 C.F.R. 1.48(b) if one of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1795

application. Any amendment of inventorship must be accompanied by a petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(i).
